Report Customization Instructions

This template presents sample data from a literacy program. You can use this template and customize it for your program. Each section can tell the story of your organization and your work. Local data is available from PIAAC and other sources to compare the literacy and numeracy rates, as well as other social issues, in your county with state and national data. Use this for advocacy with elected officials, foundations, and donors.

This chart highlights the adult literacy rate for your county, state, and nation. Choose additional relevant data to communicate the connection between literacy and other social issues in your community.

Click on the chart. Right click to edit the date. You can replace this chart with your own local program-specific data. View the template walk-thru video to see the step-by-step process for replacing the chart with local data.

Judy raised a daughter and took care of her home, but she was never able to learn to read. She struggled throughout school. Her lack of literacy skills slipped past the teachers, and she was able to graduate. She would get by with the help of her parents and her husband when it came to filling out forms, reading labels, etc. However, one day she decided to open a new door. Like Judy, many adults with low literacy skills find themselves ashamed, frustrated, and making excuses at every turn. Judy found help though through the one-to-one tutoring services provided at LiteracyCNY. Judy continues to develop her literacy skills, and works on reading a short story.

**About Literacy CNY**

Literacy CNY provides one-to-one tutoring and small group classroom instruction to more than 500 adults each year. By helping adults to read, we help them live longer, healthier, and more fulfilling lives. By helping adults to read, we help their children to break out of cycles of poverty. By helping adults to read, we increase the economic prosperity of Onondaga County. By helping adults to read, we help ourselves.
